

VEHICLE PREPARATION – HORIZONTAL LOADING

Last revised: 09/10/2020

1. Handling can ONLY take place with a valid accident prevention regulation test!

2. Lay out and position the chucks and lay out the anti-slip mats

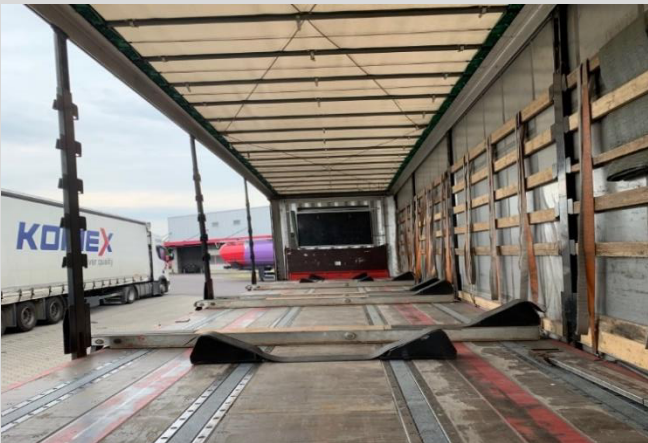

3. Position the transport frames, lay out the anti-slip mats and prepare the lashing straps

VEHICLE PREPARATION – HORIZONTAL LOADING

Last revised: 09/10/2020

4. A fully prepared vehicle should look like this.

5. Hand in the “*Progroup Paper roll loading*” registration form at the dispatch office.
6. The driver waits in the vehicle! You will be instructed by the dispatch personnel to drive into the dispatch hall! Entering the dispatch area without permission is **PROHIBITED!**
