■ Rules of conduct before and during loading

■ The plant site of Progroup Paper PM1 may only be accessed with safety footwear and a high-visibility vest.

■ Throughout the plant site, a maximum speed (10km/h) must not be exceeded.

■ Throughout the company site, smoking is only permitted at the designated places.

■ Prior to loading in the dispatch parking bay, the vehicle must be prepared for loading:

- Open vehicle tarpaulin
- Get straps ready
- Get edge protectors ready
- Get lashing straps ready
- Lay out anti-slip mats on the loading area
- Lay out wooden wedges/steel wedges

■ The truck driver must wait in the vehicle for loading to take place. The dispatch personnel will call in the vehicle. The dispatch personnel are responsible for deciding on the sequence.

■ The instructions of the dispatch personnel must be followed.

Vehicles which have not been prepared will not be loaded!!!
