

Electrical Engineer *

Together with us in Ellesmere Port

Reference number: 2023-905

Your responsibilities

- As an electrician, you will carry out electrical maintenance on our modern corrugated cardboard systems and building technology and be responsible for their maintenance
- You ensure a smooth and trouble-free production process of our corrugated board and peripheral systems
- You continuously control and optimize our electrical circuits and maintenance.
- You are responsible for the procurement of electrical spare parts and the management and optimization of the spare parts warehouse

Your profile

You are a qualified Electrical Engineer up to HNC as a minimum and 18th edition regulations. Ideally you also have mechanical experience. You are a self starter with a sense of urgency and a desire to succeed.

Do you want to work with us to make Progroup even more successful?
